

TIPS FOR CREATING A
THANKSGIVING
Tablescapes
WITH RACHEL FROM MAISON DE PAX

1. Start with your BASES

Tip: consider layering a runner over a tablecloth or even a runner over another runner for added texture.

- TABLECLOTH
- RUNNER
- PLACEMATS

2. Set your PLACES

Tip: if the table seems too full already, skip the placemats and go for a smaller charger under each plate. If you have the space, consider both for added interest!

- CHARGERS
- DINNER PLATES
- SALAD PLATES

3. Make a CENTERPIECE

Tip: always create your centerpiece after you have set your places so you know exactly how much space you have to work with. Consider both looks and ambiance when creating your centerpiece: candles and seasonal items are not just pretty; they set the mood.

- PLATTERS
- LANTERNS
- FOLIAGE
- CANDLES
- VASES
- PUMPKINS

4. Enjoy your FEAST

Tip: add your napkins, silverware, and drinkware last. Consider placing it beside the plates if there is space or on top of your plates if you're running short. Don't forget functional accessories like an extra pitcher of water, ice bucket, and the all-important gravy boat!
